The compound includes 76 private villas and apartments, built with an excellent contemporary design that seamlessly blends into the environment.

Each home starts at 268m, with several options for an internal layout to choose from. The spacious houses have four to five bedrooms and bathrooms spread across two floors, providing an ample area for a large family and nanny.

Bianca's properties offer beautiful landscaping, immersing you in natural surroundings. The compound includes private parking that can fit more than one car, a wide entrance gate and a sizable garden and fencing that adds additional privacy. No home is complete without a private pool to relax and forget about the day's stress or get an excellent workout with laps after the sun goes down.

A High-Value Community with Lavish Amenities

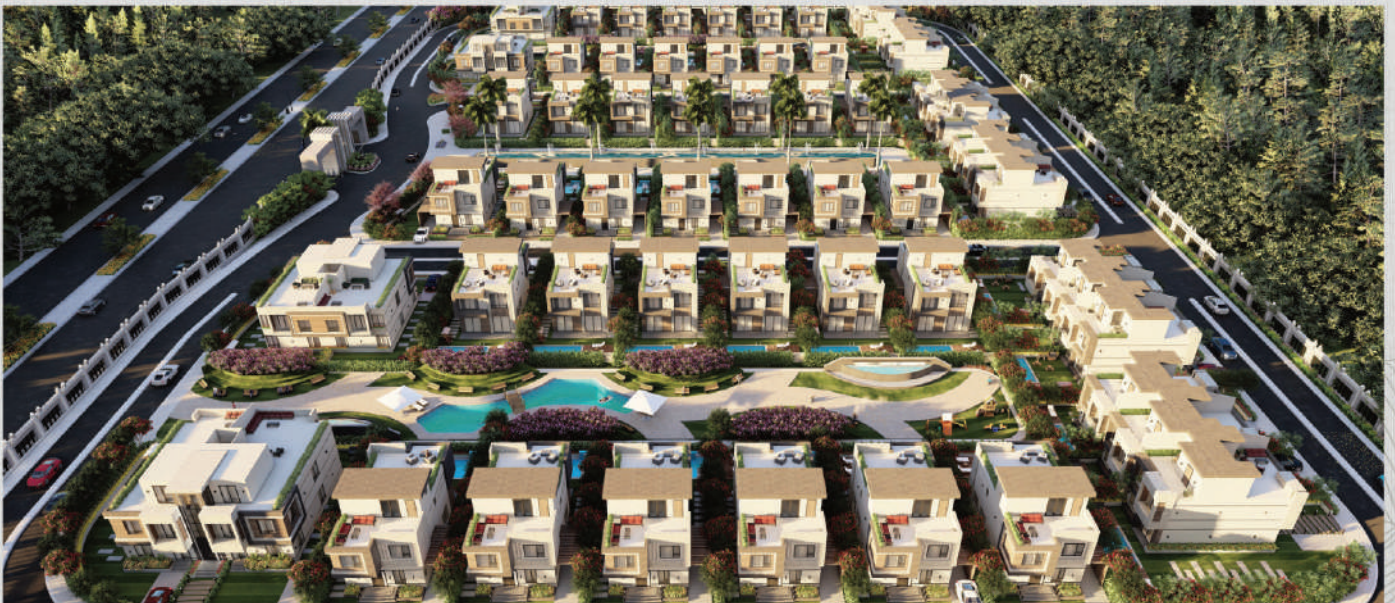

Bianca has several homes on offer, each featuring a private garden. We built a large compound with various amenities. Relax and enjoy some recreation with a BBQ with friends in the outdoor cookout area. Work hard, play harder—take a break from your routine and rejuvenate at one of our multiple swimming pools.

Bianca includes a children's area in our community, where you can enjoy some bonding time with the kids or let them run wild with others. Prayer is a vital part of your life, which is why we built a dedicated prayer room for all members of the community.

Bianca is masterfully planned, with 85% of the masterplan designated to green outdoors and lakes, and the remaining 15% distributed amongst the limited edition home types. Each unit is positioned to enjoy a spectacular view overlooking vast expanses of water features, open green areas, and swimming pools.
